

# Garden Table

Bring out your inner green thumb with these raised garden tables. The Garden Table allows you to plant, weed, and grow your garden from the comfort of your deck or patio.

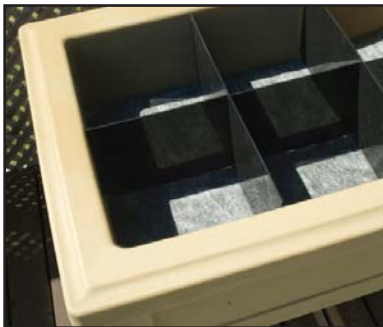

Available in a variety of color options with an adjustable or fixed leg version. Manufactured from durable UV stabilized polyethylene resin; the garden table will not fade and withstands all weather conditions.

The adjustable garden table allows for 9 inches of adjustment in the steel legs, while the swivel and locking casters make this table portable!

The fixed leg version is manufactured with plated legs and built in levelers to allow the table to sit level on any surface.

Poly panel dividers come standard with the adjustable leg version, but can also be added to the fixed leg version as an accessory. These allow the table to be separated into 6 areas to keep the root systems separated, and for fertilizing of different types of plants.

## **Adjustable Legs With Casters**

5040-000100-xx-00

44" L x 32" W x 30 - 39" H

## **Fixed Legs (No Casters)**

5040-000200-xx-00

44" L x 32" W x 35" H
